

*FREE inklingo*

*DOWNLOAD TODAY!*

*(\$ 20.00 VALUE)*

Inklingo (patent pending) prints ultra-fine color lines on fabric with any ordinary color Inkjet printer—and the cutting and stitching lines don't show in the finished quilt!

Inklingo is perfect for machine piecing, hand piecing and appliqué. It eliminates measuring (and mistakes), tricky templates, funny markers, weird rulers and light boxes, plus it allows you to cut with a rotary cutter or scissors. Inklingo is wonderful for beginners and children.

*TOO GOOD TO BE TRUE?* Try it today!

You have to see it to believe it. Free from Linda Franz at
