1. WHAT IS INKLINGO?

Inklingo is a simple and economical way to save time and make better quilts by machine or by hand, pieced or appliquéd.

Inklingo uses digital files (PDFs) to print shapes on fabric with any ordinary Inkjet printer.

Inklingo replaces measuring tools and templates. It is so innovative it is **patented!**

When you print the shapes on fabric with Inklingo:

- It simplifies the cutting.
- It simplifies the sewing.
- It allows you to cut with scissors, or cut several layers at a time with a rotary cutter.
- It allows you to make simple or complex designs more easily.

[Inklingo Quiz](#) (just for fun)

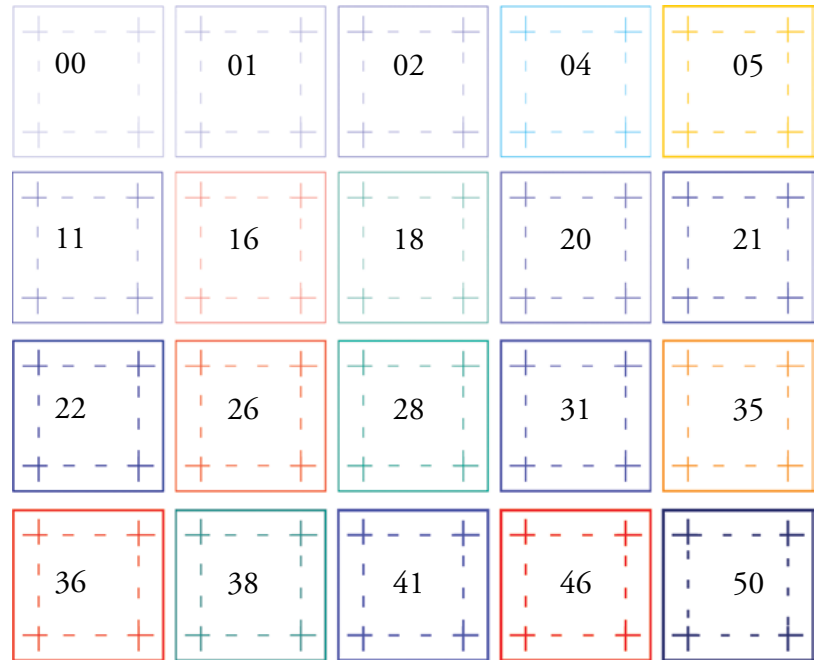

2. WHAT FABRIC CAN I USE?

Almost any cotton quilting fabric is suitable for Inklingo. When it is ironed to freezer paper, it goes through a printer safely, just like paper.

The 20 different colors of Inklingo ink which are used in the PDFs will show on almost any fabric and are likely to wash out completely. There are tips for dark fabric in [The Inklingo Handbook](#) and on the [All About Inklingo](#) blog.

Any ordinary Inkjet printer allows you to print “custom page sizes” to minimize waste, so Inklingo uses fabric very efficiently. In some cases, “combo layouts” allow you to use *less* fabric than with traditional methods.

More info > [How to Print Your First Custom Page Size](#) (under Support)

3. WILL THE INK SHOW?

There is a simple test page with all 20 Inklingo ink colors so you can test to be sure that the ink used in your printer will wash out, and that a color does not show through the front.

More info > [The Inklingo Handbook, Chapter 1](#)
(pages H1 to H48 the **free shape collection**)

4. WHAT CAN I MAKE?

There are so many choices that it can be hard to decide! *The Inklingo Smart Shopper's Idea Book* (free download) summarizes the shape collections which are available now and the shapes which have been requested. It complements the info on the website and is updated whenever new shapes are added.

More info > [The Inklingo Smart Shopper's Idea Book](#)

5. HOW DO I START?

Order and download the free shape collection and print your first shapes in the next few minutes! Report your results on the blog or in the Inklingo Yahoo group and be eligible for a monthly draw for a \$25 Gift Certificate.
