

1. Sew Star Point A (Right Side) to Triangle C (Base Triangle).  
*Notice how the lines that mark the dog ears align perfectly with Triangle C (red arrows). Sew immediately beside the line for a scant quarter inch seam.*

2. Press away from Triangle C (Base Triangle).  
*Dry iron, no steam and be careful not to stretch the bias on Triangle C. With the Star Point facing up, press the seam first to set the stitches and then use the side of the iron to lift and press away from Triangle C.*

3. Turn the units so you can sew position Star Point B and sew with it on top of Triangle C (next).

4. Sew Star Point B (Left Side).  
*Notice how the lines that mark the dog ears align perfectly again (red arrows).*

5. Press away from Triangle C (Base Triangle).

6. Trim the dog ears.  
*Each block is 3.5 x 3.5 unfinished.*
